ENTRY DOORS

TAILORED SOLUTIONS FOR ENGINEERING CLIENTSCRAFTING PERFECT SPACES TOGETHER

Welcome to Foshan ELITE Door & Window Co., Ltd. your reliable partner offering exceptional interior and exterior door solutions. We understand that details and quality are crucial in engineering projects. That's why our robust manufacturing capabilities professional export experience, and innovative franchise distribution system are here to meet your diverse needs.

Manufacturing Strength •

Manufacturing Strength: Our manufacturing facility boasts state-of-the-art equipment and a team of skilled craftsmen and technical experts. Whether it's a large-scale commercial project or a refined residential design, we can customize various types of door products to add a unique charm to any space.

Professional Export Experience •

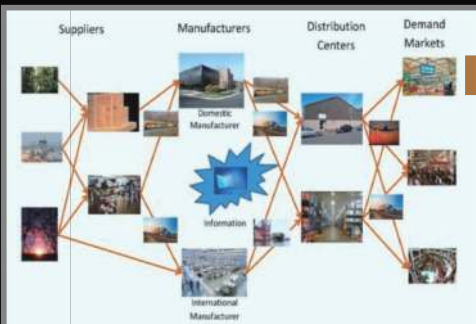

Professional Export Experience: Over the years, our successful collaborations in international markets have provided us with deep insights into the requirements of different regions and project types.

Customized Solutions •

Customized Solutions: We understand that every engineering project is unique. Our products have stood the test not only in terms of quality but also in design and functionality. That's why we provide tailor-made solutions to meet your specific needs. Whether it's style, material, or functionality, we can offer you bespoke door products, turning each project into a distinct masterpiece.

Franchise Distribution System •

Franchise Distribution System: If you're a professional partner in engineering projects, our franchise distribution system offers you even more support. By partnering with us, you'll collaborate with a robust team, share resources, access customized solutions, and jointly explore the market. At [Foshan ELITE Door & Window Co., Ltd], we don't just manufacture doors; we create exceptional spatial experiences for your engineering projects. Let's collaborate to craft more extraordinary architectural and design moments together!

THE ENTRANCE BUILDER

ENTRY DOORS

Exterior doors are a statement of style and reflect the homeowner's unique personality. A bold and beautiful door will transform the look of a home and impact the mood and attitude of the entire space. Explore our line of modern and contemporary doors and choose from our authentic, high quality and affordable entry doors to make a lasting impression.

The flexibility of manual customization to customize your unique taste

There are no restrictions on material selection.

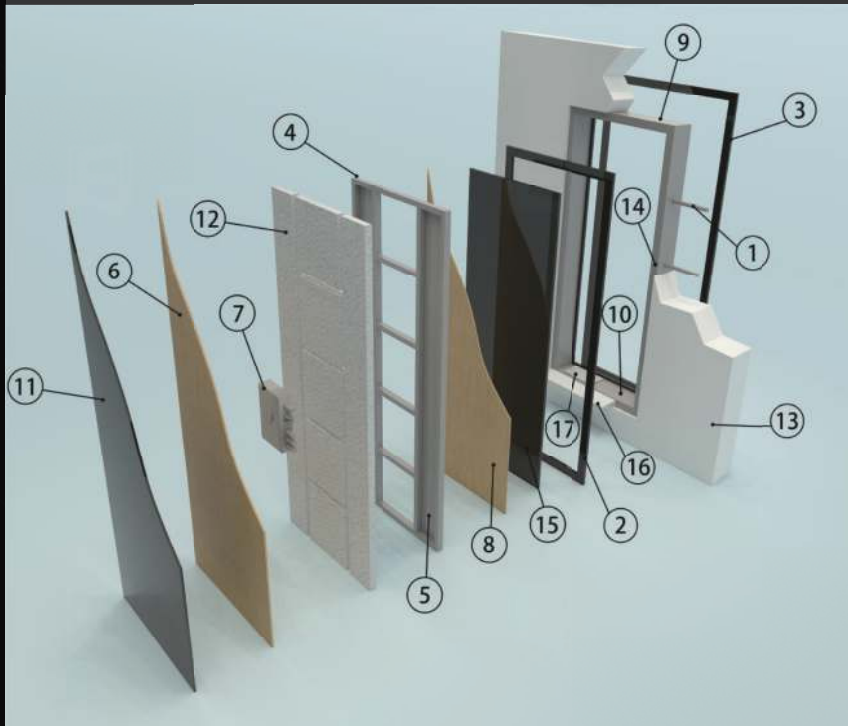

Combine your budget and style to create the door that best suits your project.

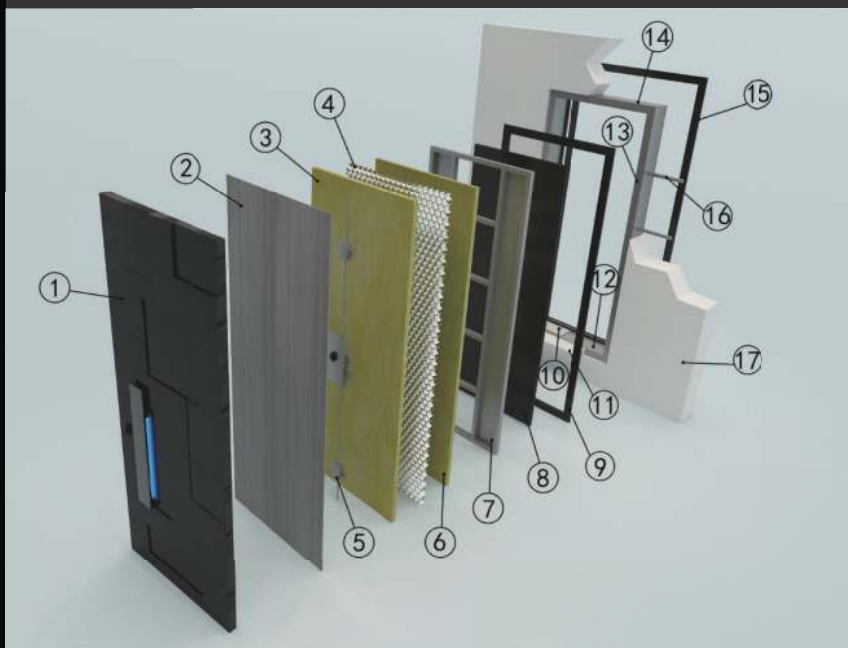

STRUCTURE SHOW

- 16. Door frame fixing elements

THE CORE CHANGE IS THE INTELLIGENT CREATION OF NEW LUXURY LIFE.

ELITE ENTRY DOORS

TOP DOOR FITTING SYSTEM

It uses imported sealing strips made of the same materials as those used in top cars, and also uses an aviation-grade aluminum honeycomb sandwich structure, which can better prevent moisture, fire, and heat preservation, and has outstanding impact resistance, so that the door has a good shock-proof effect.

SAFETY ANTI-PRY TECHNOLOGY

The lock tongue adopts the SBS safety blocking system, which is a specially designed and customized rotating lock tongue, when the lock cylinder is damaged, the rotating hook lock will automatically block and bite deeply, which has a very good safety and anti-pry function. You protect you home.

INTELLIGENT HARDWARE SYSTEM

All are made from well-known domestic top hardware manufacturers, and the Wuhui and doors are integrated into one, making the design more exquisite, the whole more beautiful, and highlighting the sense of technology. Between light and shadow, it creates a warm home and warms people's hearts

ENJOY PRIVATE CUSTOMIZATION

We have a professional design and R&D team to customize your private living space, provide you with noble customization, and accept design styles that match a variety of materials to give you a higher-end service experience.

ELITE ENTRY DOORS

AUTOMATIC REBOUND DROP SEALING

When your pivot door is closed, our innovative seal easily descends and rises, creating an upper and lower barrier for maximum protection from the elements.

It rises smoothly with every opening, ensuring unimpeded ingress and egress, maintaining your home's security and energy efficiency.

Start experience the future of home protection with our automatic sealing technology!
